Full Stack Developer

KR

Korean, English

BACKGROUND

ABOUT

Enthusiastic full stack developer specializing in building robust web applications and data-driven solutions. Experienced in collaborative projects and committed to delivering high-quality software.

WORK EXPERIENCE

Full Stack Developer (Trainee), SSAFY (Samsung SW Academy For Youth)

Mar, 2023 - Feb, 2024 1 year

Completed full stack development projects focusing on web technologies with a strong emphasis on algorithms.

- Developed data-intensive applications using React and Node.js.
- Utilized RESTful APIs to streamline functionality.

Data Engineer (Trainee), SSAFY (Samsung SW Academy For Youth)

Mar, 2023 - Feb, 2024 1 year

Worked on data engineering projects involving data pipelines and processing.

- Implemented ETL processes for data collection using Python and Pandas.
- Developed data visualization tools to present insights using JavaScript libraries.

PROJECTS EXPERIENCE

Project 01, SSAFY Projects

Mar, 2023 - Sep, 2023 6 months

Full stack application project focusing on data handling and user authentication.

- Created user-friendly interfaces with React.
- Integrated backend services with Node.js and Express.
- Deployed applications using Docker.

Project 02, SSAFY Projects

Sep, 2023 - Dec, 2023 3 months

Data processing project aimed at extracting insights from large datasets.

- Designed a data pipeline for ETL processes.
- Built an interactive dashboard for data visualization.

SKILLS

Programming Languages

Python

JavaScript

Frameworks & Tools

React

Node.js

Express

Docker

Data Engineering

Pandas

ETL

Data Visualization

INTERESTS

Open Source
